

## Temperature Detector Gate

**Keep the corona virus out of Door**

**2020 new corona virus epidemic prevention equipment**

<https://iyss.com.mx/>

# Temperature Detector Gate

## Alarm for Fever Visitors:

- **Accurate test body temperature**
- **Non-contact temperature sensor**
- **Show temperature and alarm for fever**
- **Alarm value adjustable (Suggest :37.0°C)**
- **Temperature deviation: 0.2-0.5 °C**
- **Distance: 1-20CM**
- **Test Speed: <1 Second**
- **Gross Weight : 38kg**

## Temperature Detector Gate

### Characteristic:

- **Automatically detect temperature, no need operator;**
- **Quick response, detect body temperature in 1 second;**
- **Audible alarm for high temperature passengers;**
- **Non-contact temperature sensor, avoid cross infection;**
- **Environmental adaptability, can work at -10°C location;**
- **Intelligent software, can prevent false alarm caused by high temperature and direct sunlight;**
- **7\*24h Non-stop working**
- **Easy installation**

INSERCIÓN SMT Y SERVICIOS

## Temperature Detector Gate

### Basic Data

Power consumption : <35W

Check working temperature: 10°C~40°C

Humidity: 95 %

Power: 120V~220V, 50/60HZ

Outer size: 2220(H) \* 820(W) \* 400 (D)

Inner size: 2000(H) \* 700(W) \* 400 (D)

# Temperature Detector Gate

## Prevent Epidemic

### Fever visitors refused to enter

- Accurate test body temperature
- Non-contact temperature sensor
- Show temperature and alarm for fever
- Temperature deviation: 0.2-0.5 °C
- Voice remind when find fever person
